

Thanks for the deal!

I teach CS at a german high school. In our CS lab there is a poster of you (hangs beside Ada Lovelace, Alan Turing, Konrad Zuse and others), where I read, that besides writing TAOCP you are a passionate organ player.

In my home district Köln-Worringen you can find the worldwide first (and probably still unique) "Bierorgel"¹: It's a pipe organ with integrated beer tap! So if you plan to visit Germany give me a call. I surely can arrange you to play on it.

Have fun with the real MIX.

¹please google: "Bierorgel, Köln Worringen, site:de"
